**PHILIPS**  
**AVENT**

sense and simplicity

# Highlights

## Electronic breast pump

Only Philips AVENT's electric breast pump has a unique memory feature that learns and continues your personal pumping rhythm for maximum comfort. The breast pump also has unique active massage cushion intended to help stimulate natural let-down.

## Bottles clinically proven

Unique anti-colic system consists of the Philips AVENT nipple and adaptor ring allowing air to flow into the bottle instead of your baby's tummy for better digestion.\*\*\*

## Milk storage cups

Ideal for storing breast milk: Thanks to the adaptor compatible with Philips AVENT breast pumps and nipples, you can express your milk directly into the cup and feed your baby from the same cup. Cups are pre-sterilized/ready to use, easy to label, leak proof, can be used in a fridge/freezer and are dishwasher safe

## Moisturizing nipple cream

Hypoallergenic for mother and baby. Moisturizes and softens dry or sensitive nipples. Easy to apply and no need to remove before breastfeeding.

## Breast shell set

The ultra-soft breast shells are worn inside your bra to protect your nipples from chafing and to collect excess breast milk

## Disposable breast pads

Unique four layered construction for maximum dryness: 1. Ultra soft top layer with nipple indent – keeps breast dry at all times 2. Ultra absorbent layer, cushioned for extra comfort 3. Ultra absorbent core – draws in moisture to guard against embarrassment 4. Ultra breathable outer layer – helps avoid sore nipples Anti-slip with adhesive tape – keeps pad in place

## Sealing discs

Convert all Philips AVENT bottles into milk storage containers.
